Good morning,

Thank you for hosting us at your Community Association meeting on Monday evening and for helping to spread the word about our pre-meeting drop-in event. I'm pleased with the turnout and we had quality engagement from attendees.

Following the presentations, there was a request from the association for the slides and the video. I've attached the slides in PDF form for easy printing/reading and here is the link to the video that introduces the plan:

If you're able to please encourage your membership and their contacts to make the most of the online opportunity to share their issues and opportunities through our website: www.environmentplan.tasman.govt.nz.

Also, I left the sign up sheet at the meeting in case anyone wanted to sign up to be kept in the loop / get involved in further rounds of engagement as the plan progresses. Did anyone use this and if so are you able to please attached a copy so we can add them to our list?

Kind regards,
Nicole
