Good evening Ross,

At this months MDCA community meeting the hearing loop was discussed again.

Bruno stated the speakers can only be used for one device at a time. I.e when the speakers are being used for a video feed then the speakers can not be used for the microphone as well.

MDCA would like to know whether there is anything that can be done about this and if there is what the cost to upgrade the system to include these options would be?

MDCA are thinking that this could be an opportunity for MDCA to raise funds to have the system upgraded.

I would be interested to know whether the Hall committee feel this is something worth considering.

Kind Regards

Marion Satherley

MDCA Chair
