- TEP Engagement ONFLCE Events (Rev 1).pdf(~411 KB)

Hi All.

On the 25th of March, TDC wrote to landowners to let them know that property they owned is within one or more of the draft Tasman District Outstanding Natural Landscapes, Outstanding Natural Features, and/or the new Coastal Environment.

We are in the early stages of these projects and want to hear from landowners and affected people about their future land aspirations and views on whether the draft boundaries are in the right place. Working together will help make sure the final areas are correctly identified.

To help gather feedback, we are hosting drop-in feedback events across the district from late May through to early June. Attached is the schedule of events.

The feedback events are an opportunity for council planners and the authors of the Landscape Study and Coastal Environment Study to hear from landowners directly and answer any questions they might have.

More information is available at the website: www.environmentplan.tasman.govt.nz/landscapes-and-coastal-environment-projects.

Please don't hesitate to contact myself or Jeremy Butler if you have any questions.

Regards

Anna McKenzie
