Reply from printers

Let me know if printing needs to happen soon to beat the survey or if leaflet is being changed to include QR code and link to survey. Maybe if we get real clever TDC could print this leaflet too or we share costs. If we include TACA we will need more than 2500.

I will be in email contact next week as in Christchurch- fingers crossed back on Thursday. Happy to keep coordinating

Also more than happy to walk dogs and deliver leaflets. I wasn't concerned about time taken last time

Hi Aileen,

Yes your exec is correct, and it is and that is how we cost and produce this type of work.

We maximise efficiency.

We actually print on SRA3 which is bigger than A3

Kind Regards,

**Sean Harnetty**

Hi Sean

Many thanks for the quote. One question from our Exec was would it be more cost effective to print 4 upon A3 and cut into 4? I would appreciate your advice.

many thanks

Aileen

Great.  
All good for me.  
Cheers Marion
