After submissions were received the draft document was revised and this is forming the basis of further work with iwi and with landowner representatives to refine some of the provisions in the draft.

A workshop has been held with Councillors and helpful feedback received. This feedback is being used to improve the draft strategy and to develop implementation advice for the council.

We are hopeful that the final strategy will be approved by the Governance Group in July and go to the Council in August.

Thank you for your patience with the process which has taken longer than we anticipated.

If you have any questions please contact me at any time.

Peter Lawless
Director Phoenix Facilitation Ltd
