Jan,

Assume you have seen this?

The growth projection in this 2021 report seem significantly lower than those in the 2022 FDS.

Regards,  
Paul.

Hi Paul

That's the one that I used in my analyses and assumed was used for the FDS. I argued that these were too high and the method of allocation to various areas was not fit for purpose.

If TDC has used even larger numbers, they are even more wrong than I thought....

regards, Jan
