Hi Jamie,

Some time ago I alerted you to the damage caused to Mapua Drive south as part of the excavation process for Frielich's subdivision. You advised that the section of Mapua Drive up to the 50kph limit was to be resealed. I was bemused when the road markings were redone last month and wondered whether the sealing actually was going to be redone?

Things came to a head yesterday with an accident on that section of the road and I have been advised that the road is now so slick that cars slide out of control when it is wet as it was yesterday. During winter that section of road is often iced up and will turn into a skating rink.

I noticed that a temporary 50kph sign has been installed just of the motorway so it is possible that the problem has been noted.

Can you reassure me that this acute problem will be fixed as a priority?

Regards

Hi Wayne

Yes we are bringing forward a waterblasting job to remove excess bitumen as soon as we can get the specialist equipment on site.

Regards

Jamie
