Your name: Heather and Steve Olds

Phone number: 035403439

Your question:

Has the Mapua Community Association considered the potential for the road to be closed at McKee Domain?

Is the Association intending to liaise with the TDC on this issue?

Has the Association had any discussion with the TDC on this issue?

We are interested in any thoughts/comments the association may have in regard to the road closure.

We are concerned if the road is to be permanently closed Pomona Road is not suitable for the amount of traffic it is getting and the speed of the traffic is way too fast.

Heather / Steve,

MDCA and understands that TDC Geotechnical Engineers are currently evaluating the extent of the slippages at the Bluffs on Stafford Dr and MDCA will share any updates once this work has been completed (estimated by TDC to take 1-2 weeks).

Additionally, at the Tasman Area Community Meeting (TACA) this past Thursday evening, resident's concerns regarding the increased traffic on Marriages / Pomona Roads were shared with Councillors Christine McKenzie and Trindi Walker, and TACA will also contact Jamie McPherson (TDC Roads & Transport Manager) directly to discuss their concerns regarding the volume and speed of additional traffic on these roads.

I also encourage you to contact TDC directly to discuss your concerns.

Best regards,
Paul McIntosh

MDCA Chair

Māpua & Districts Community Association

Māpua Hall

72 Aranui Road, Māpua 7005
