Stafford Drive traffic changes to Priority Give Way system

29 June, 2023

Tasman District Council has installed a Priority Give Way system on Stafford Drive at Ruby Bay, which will mean reduced waiting times and allow traffic to flow more freely through the area.

The new system is in effect immediately. Regular users should take the time to familiarise themselves with the road layout and the rule regarding priority give ways, namely that the red arrow (indicating the direction of travel) always gives way.

In simple terms, all traffic heading down the hill must give way to all traffic heading up the hill.

Access to the section of road, which provides a main thoroughfare connecting Māpua, Ruby Bay and Tasman Village, was affected by a major slip which brought a large amount of material across the road during the August 2022 weather event.

Initial clearance of debris was carried out in late 2022, with the road reopening under a traffic light management system since early 2023.

As the slip areas will continue to fret stones and small boulders, road users should continue to be vigilant for falling rock, particularly during rainy periods.

In the event of severe or prolonged wet weather, Stafford Drive will likely be closed as a safety precaution, and road users should factor this into their journey plans when travelling through the area. We will always try to give as much notice as possible of an impending closure through our channels.

We thank everyone for their patience.

ENDS

Hi again,

Apologies for the date listed below – the release date is 29 May, not June.

Thanks
