Hi Paul, Marion and team,

I'm one of the team trying to establish a pump track in Mapua next to tennis court. We're currently trying to get some small funding from council for early design phase stage of pump track. We are applying for a grant and as part of our application we need to provide a bank account which we do not have. Do you guys mind if we use the community associations bank account and if ok could you please send account number through?

Cheers,

Duncan Andrew
