Hi Paul.

A quick email to let you know of some upcoming work in Mapua so you can get the word out through your channels.

1. Asphaltting of the parking bay opposite Java hut. This work will remove the ongoing issue of gravel spilling onto the footpath and road. This work will be completed in November at the same time as number 2 under stop go and shoulder closed traffic management.

2. Removal of the low timber fence along the front of the reserve at the north end of Aranui Road, this will allow topsoiling and seeding of the batter between the new path and the reserve.

3. Tweaks to the layout of the Aranui Road between Higgs and 29 Aranui Road will be undertaken on Monday 30 October, this will be undertaken under stop go for the day.

Any questions, please let me know.

Cheers.
