

MDCA Chairperson report for dec General Meeting

Kia ora everyone

TACA

Emails

Thanks to Bruno's efforts we have managed to hack into the innards of our email server and I can now both retrieve emails to my gmail and also send them using the chairperson@ourmapua.org

TACA

Along with Mike Kininmonth I attended the December TACA meeting and I was impressed with how well the meeting ran. I was also impressed with their newsletter Tasman News, being printed in colour with some assistance from the TDC. They have had the same problems with respect to committee identification AML requirements and only avoided having their accounts frozen only by assuring that all their committee had completed their AML data requirements. They were also interested in participating in first aid and/or AED instructions sessions thus I will be liaising with Richard Clemmett on this.
