to MDCA, Mike, Dan, Christeen ▾

Hi all

I'm pleased to say we will shortly be starting construction of the 'missing link' footpath along the frontage of 125 Mapua Drive. This is being funded jointly by the Council and the consent holder for an adjacent subdivision.

All going well this work will be completed before Xmas.

Regards

Jamie

Early Engagement for three bylaw reviews

MDCA Secretary/NovDec Correspondence x

Cat Budai <cat.budai@tasman.govt.nz>

to ▾

Kia ora,

Tasman District Council is currently undertaking early engagement on three bylaws; Public Places, Dog Control and a proposed Cat Management bylaw. These will be active until 14th December.

They will be featured on social media and in Newslite, which is being published and distributed this week. We are hoping to have a wide range of feedback to help inform the draft bylaws, which will then be made available for consultation in mid 2024. I would appreciate your support in sharing this engagement with your community.

[Dog Control Bylaw Review | Shape Tasman](#)

[Proposed Cat Management Bylaw | Shape Tasman](#)

[Public Places Bylaw | Shape Tasman](#)

While Shape Tasman is the preferred method of giving feedback, I'd like the digital divide to be minimized so if you come across community members who aren't able to engage in an online format they could either book-a-librarian for some one-on-one support or I am happy to get in touch to arrange something that works for them.

Happy to discuss if you have any further questions.

Cat

to Drew, Jim, Mike, MDCA

Kia ora Mike,

Drew is correct, the plan is to remove the fence in the area where the path has been raised.

Richard Hilton has planned to move the fence back into the reserve approx.. 15-20m to align with the other fencing within.

We will monitor the situation and if needed, we can act quickly

We'll be leaving the barrier that's supporting the wisteria vines

Phase A restrictions introduced for Tasman urban supplies from December 1

29 November, 2023

Tasman District Council has announced that Phase A water restrictions are being introduced for its urban water supplies, and their rural extensions, effective from this Friday December 1, 2023.

The areas affected are the Wakefield and Waimea zones, which includes Richmond, Brightwater, Hope, Redwood 1 and 2 and Māpua water supplies.

Nelson residents living adjacent to Champion Road, where water is supplied from the Richmond Water Supply Scheme, will also face Phase A water restrictions.

This also covers the Wakatu Industrial Estate, Champion Rd and parts of Saxton Road West.

Community Infrastructure Group Manager Richard Kirby says recent data showed that Council's water readings in the Waimea bores and Delta zone were above the consented take.

"These measures do not reflect an overly low level of water available in the district, as most schemes are well below their interim limits."

"However, it has underlined a need for precautions to avoid broader restrictions later in the season. With a dry summer predicted, we are implementing these restrictions in order to extend our aquifer supplies throughout summer."

"We will be reviewing the situation the following week to see if there is any improvement. The amount of rainfall in the coming days will determine whether there is a need for ongoing or elevated restrictions."

"In the meantime, we encourage residents in all areas of the district to conserve water as much as possible and hints on how to do that are available on the Council website."

Under Phase A restrictions, watering of grass or lawns is not permitted. However, watering decorative and productive gardens is permitted using a handheld hose with trigger nozzle or time limited water system.

For pool owners, filling a pool is prohibited at this time, however topping up a pool is still permitted.

More details on what the restrictions mean can be found at www.tasman.govt.nz/link/water-restrictions .
