Subject: RE: Mapua Community Notice board

Mike,

Thanks for keeping this moving along.

A simple sliding door (glass preferably) lockable board is what we had in mind - similar to the pictures below, including the Boat Club noticeboard. These can be purchased locally for less than \$500.

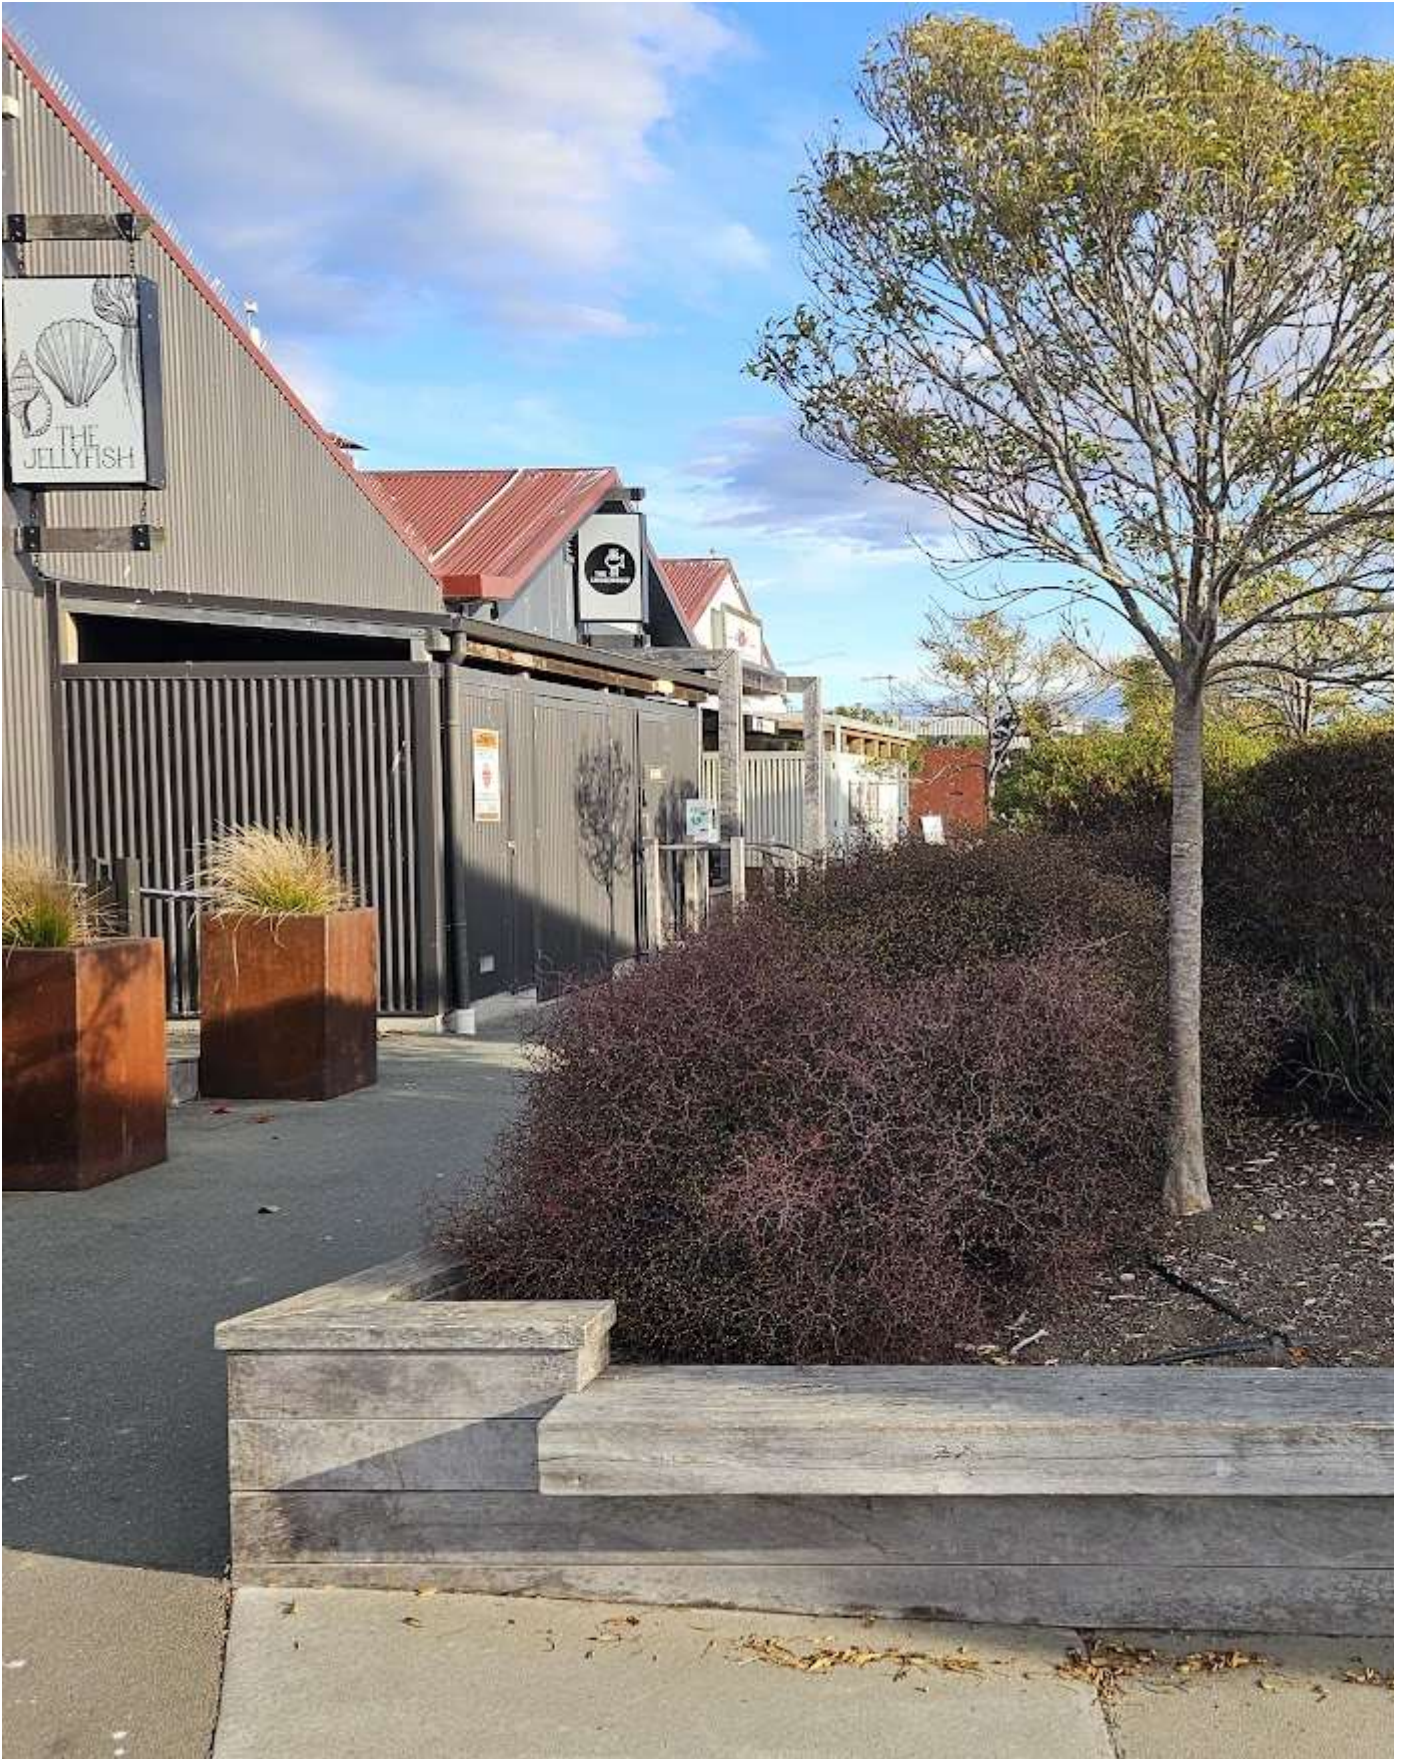

Location options are limited given I do not know how the TDC / Tenant permissions work - but I have included a few photos showing potential sites.

In terms of managing the content, we propose that the MDCA do this, with people wanting to post community notices simply contacting our nominated representative to get access.

Site 1: Within retail area at end of Planter Box

Site2: Beside shade structure just past Apple Shed

Site 3: Near round-a-bout opposite Delicious

Cheers,
Paul.

Hi Paul,

An electronic board is not in the LTP, so is at least 3 years away.

May I suggest a simple alloy framed one, similar to the Boat Club.

Can you please come up with a definitive notice board you want, its preferred location and how the content is going to be managed ?

I'll take your comments back to the team and see what we can do.

Best wishes

Subject: Re: Mapua Community Notice board

Mike,

Thanks for your guidance on this request.

The motivation for the enquiry was the relative lack of noticeboard space for community-focused notices (for upcoming meetings, events, significant developments etc).

In my time as the prior Chair of MDCA and now as an Exec Member, I have regularly had to beg/bargain for important notices to be displayed in shop windows/doors etc, or rely on willing neighbours to post them on their fences/walls.

Currently the only fully accessible noticeboard is in the Mapua Library - this is often full and only a small segment of the Community use this facility and hence see the notices. Other board are dedicated to local sports clubs, are business notices only (i.e. MDBA) or remain locked at shops discretion (e.g. 4 Square and the Community Hall).

The Wharf area attracts a range of local and regional visitors, and a broader age demographic, both of which make it an attractive place to post notices.

As of the type of board, I understand that an electronic board would allow more control over what is posted, together I assume with a more formal decision-making process for the type/duration of notices. Regardless of the type of board, my preference is clearly for Community notices to have preference over day-to-day business advertising since there are already a number of spaces for this within the village.

Happy to discuss further if required.

Best regards,

Paul McIntosh

MDCA Exec.

Hi Nick we are keen, but it shouldn't be driven by IT. Essentially IS don't *know the needs of the community*, or our commercial presence. Others do. In this case, a combo of your team and perhaps more broadly Community Infrastructure / Service & Strategy.

If you do think a presence is a good idea, then we should make a call on traditional or electronic. If electronic, then we have some connections within the digital display space that can get us attractive 'deals' (requires an advertising presence)

To support a low rates number, for the LTP, we have had to strip funding from our 'smart region' budget to offset other changes. But we can get access to digital displays for next to nothing if we are prepared to support advertising (think nelson airport)

I've cc'd Peter Darlington into this as, depending on where you want to go, he may need to be engaged.

Kiaora Mike

Yes we are interested. Our IT people were keen on an electronic board at one stage. I will follow this up.

Ngā mihi

Nick

Subject: Mapua Community Notice board

Hello Nick,

Paul McIntosh, Representing the MDCA (Mapua and Districts Community Assn) has enquired whether or not TDC would be interested in placing a community notice board in or around the Mapua Wharf area ?

Could you please contact Paul and discuss ?

Regards

Mike Kininmonth | Councillor
