

# TEMPORARY ROAD CLOSURE

## STATE HIGHWAY 60 / HIGH STREET

The Motueka West stormwater discharge project is making significant progress, and the next stage of the work involves the laying of pipes under the road.

To enable this work to be completed, a section of State Highway 60 / High Street Motueka will close at midnight on Sunday 16 June with planned reopening on Thursday 27 June.

There will be significant detours in place while this phase of the project is done. All northbound traffic will detour via King Edward Street, Queen Victoria Street and along Whakarewa Street. Southbound traffic will be diverted along Tudor Street to Thorp Street and along Old Wharf Road.

Work will generally be done during daylight hours but the road will remain closed for the duration of the work. Residents near the site will still have access to their properties and pedestrians and cyclists will still be able to move through the area.
